AFIF FAKHRIYADH ASRI

FULL STACK SOFTWARE ENGINEER

afiffakhriyadh2012@gmail.com | +62 852 1123 1393 | afif-dev.vercel.app | vendetta2020 | Bandung, Indonesia

PROFESSIONAL SUMMARY

Full-Stack **Software Engineer** and Informatics student at Telkom University with experience in building end-to-end web applications. Built **Jepreto**, a photobooth platform serving **1–2 million monthly visits** and **200+ business clients**. Also developed a Point of Sale (POS) system, a payment gateway simulator, and landing pages. Skilled in frontend and backend development, API integration, database management, and responsive web design, with foundational experience in mobile application development.

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, TypeScript

Frontend & Mobile: React.js, Next.js, Tailwind CSS, Responsive Web Design, Figma, Flutter

Backend & Data: Laravel, Node.js, NestJS, REST API Development, WebSocket, Prisma, MySQL, MongoDB, PostgreSQL, Redis

Domain & Integration: Retail ERP, double-entry accounting, inventory costing (MAV), procure-to-pay, EDC reconciliation, marketplaces (Shopee, GrabMart), payment gateways (Doku, Duitku).

Tools & Platforms: Git, GitHub, Docker, Postman, Swagger

Additional: POS & Inventory Systems, API Security Fundamentals, Automated Testing, UI/UX Implementation

WORK EXPERIENCE

PT Jepret Sana Sini (Jepreto) — **Jakarta, Indonesia**

Software Engineer (Project Based) — *Jun 2025 – Oct 2026*

- Contributor to **Jepreto.com,** an online photobooth platform with **1–2M monthly** visits (Next.js, TypeScript, Prisma, MySQL, Redis).
- Built a **device licensing platform** serving **200+ photobooth businesses**, with billing, renewals, device migration, audit trails, and multi-currency pricing.
- Integrated **Doku SNAP B2B and Duitku** with automatic gateway fallback, supporting creator balance management and withdrawals.
- Launched a **real-time queue system** with live TV boards, ticketing, and role-based access for on-site events.
- Developed a **creator template ecosystem** for print layouts and review workflows, plus internal HRIS tools for attendance, payroll, and invoicing.

Bethsaida Hospitals — **Tangerang, Indonesia**

IT Infrastructure Intern — *Jun 2023 – Des 2024*

- Assisted with **network installation** and basic switch configuration to support hospital IT infrastructure.
- Performed **computer maintenance and hardware/software troubleshooting** to resolve technical issues.

PROJECTS

Payment Gateway Simulator | NestJS, TypeScript, PostgreSQL, TypeORM

- Engineered a **modular payment gateway backend** featuring merchant management, transaction processing, and refund workflows.
- Implemented **API credential management, webhook handling, and security controls** to strengthen API reliability and access protection.
- Developed and validated backend services through **automated testing**, covering transaction workflows, refunds, and authorization mechanisms.

BrewPOS — Coffee Shop Management System | Laravel, PHP, MySQL, JavaScript

- Engineered a **full-stack point-of-sale (POS) system** integrating order processing, cashier sessions, and payment workflows.
- Developed **inventory management and recipe-based stock deduction** with auditable stock movements and inventory restoration for voided orders.
- Implemented **kitchen display workflows, sales reporting, and role-based access control** to support daily coffee shop operations.

Landing Pages & Company Profile Websites | React.js, Next.js, Tailwind CSS [adjust to actual stack]

- Developed **responsive landing pages and company websites** with user-focused layouts and modern frontend interfaces.

EDUCATION

Telkom University — **Bandung, Indonesia**
Bachelor of Informatics Engineering (S1) — Sep 2024 - Present

SMK Telkom Jakarta — **Jakarta, Indonesia**
Vocational High School, Software Engineering (RPL) — 2021 - 2024

CERTIFICATIONS

Software Engineer Certification – HackerRank • CB575C799FEA — Oct 2026
Google AI Certification – Coursera • A26ECFNV9FJ6 — Aug 2026
